Enrolling now for our Fall term!

- KINDERLEARN -

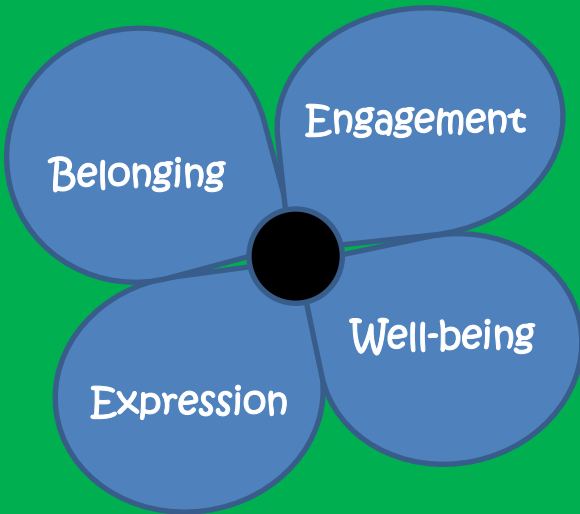

Small Class = a BIG head start!

A safe, social, academically enriched early learning experience for 4 and 5 year olds not enrolled in Kindergarten.

- ① Safe, small Classroom environment (max. 4 students)
- ② Highly personalized learning experience with regular parent communication
- ③ Enriched Ontario curriculum
- ④ Half-day am or pm schedule 3 days/week (Mon/Wed/Fri)
- ⑤ Seamless in-person to online transition, if required

A place to grow.

Our Kinderlearn program offers an academically enriched Ontario Kindergarten curriculum, developed by Ontario Certified Teachers and delivered by Ontario Registered Early Childhood Educators. We help children discover that learning is fun and worthwhile, while planting the seeds for healthy learning habits and social skills that lead to lifelong academic and personal success.

A place to feel certain.

With so many questions about next school year, it's natural for families to feel anxious. How many students will be in your child's class? Will your child's learning be disrupted? What will online learning look like? If you've decided to keep your 4 or 5 year old home this school year, consider our Kinderlearn program. Our dedicated teachers and thoughtfully planned curriculum create confident, enthusiastic learners ready for Grade 1. Our 4:1 student to teacher ratio, regular communication with parents, seamless transition between in-person and online learning, and robust health and safety measures ensure a secure and predictable academic, social and emotional start to your child's educational journey.

Literacy

Early education is more than organized play - it's a critical time of development for children. We know 4 and 5 year olds are capable and enthusiastic learners eager to engage in reading and printing every day.

Numeracy

Our language arts program is balanced with a daily dose of math! Hands-on learning activities build students' numbers knowledge, develop problem solving skills and help make real-world math connections.

+ More!

We go beyond the standard Ontario Curriculum to create a diverse, rich learning experience. In addition to reading, writing and math, students benefit from a rotating schedule of science, social studies, French and art.

Fall/Winter Term: September 14, 2020 to January 29, 2021

Winter/Spring Term: February 1, 2021 to June 18, 2021
